

THE PORT OF WILMINGTON, DELAWARE SUPPLY CHAIN LEADER FOR LIVESTOCK EXPORTS

LIVESTOCK HANDLING EXPERTISE

- Leading US seaport for cattle exports – over 50,000 head in 2011
- Extensive experience with wide range of livestock shipments – of all sizes, including pregnant dairy cattle
- Flexible, responsive and creative logistics partners customize all inclusive service packages:
 - ♦ Intercontinental Services of Delaware, Inc.
 - ♦ Port Contractors, Inc.
- Fast turnaround – ships and trucks

NORTHEAST & MID-ATLANTIC DISTRIBUTION CENTER

- Six “open” berths (35 – 38 ft deep) with 33 acres of cattle truck staging area
- Non-congested mid-Atlantic location with immediate interstate highway access
- Year-round covered dry storage for hay, bedding and feed, including bulk
- Northeast location mitigates Bluetongue disease
- First full-service deepwater port on the Delaware River
- Proximate to quarantine facilities including the PA Holstein Association
- Flexible ship start times and ten hour straight-time work day
- Proud member of LEA

Safe and efficient loading of specialized livestock vessels

Stress-free transport to and onto vessel via 2-truck loading platforms; multiple side-port capability

Breakbulk loading of unitized hay and bedding + breakbulk/bulk loading of feed
